Chicken Facts

- The laying period for a chicken is 3 to 4 years
- A chicken will lay 1 egg every other day during winter months
- A chicken will lay 1 egg almost every day in spring, summer and fall months
- When chickens sleep (or roost) they line up fairly tightly next to one another
- Chickens are really easy keepers
- If you have the proper feed and water containers, you only need to refill once a day
- The best feed for chickens is a mixture of dried crushed corn sometimes called layer mash
- Chickens like to scratch around in grass and dirt
- A chicken's egg will keep three or four days without refrigeration
- If you have 5 or 6 chickens, they will most likely use only 1 or 2 nesting boxes
